
Course Code	: 2304CS302	Date	: 07-10-2025
Course Name	: Object Oriented Programming using Java	Duration	: 150 Minutes
		Total Marks	: 70

Instructions:

1. Attempt all the questions.
 2. Figures to the right indicates maximum marks.
 3. Make suitable assumptions wherever necessary.
-

- Q.1** **(A)** What is JDK? Explain its role. **4**
- (B)** Why java is known as platform independent programming language? **3**

OR

Explain explicit data type conversion with example.

- (C)** Explain all java features. **7**

OR

Explain operator precedence with example.

- Q.2** **(A)** What is array? Demonstrate two-dimensional array. **4**
- (B)** What is function? Explain its types. **3**

OR

Demonstrate switch-case statement with suitable example.

- (C)** Write a java program to check whether the given number is prime or not. **7**

OR

Write a java program to find the maximum number from the given three number using if-else statement.

- Q.3** **(A)** What is wrapper class? **4**
- (B)** Implements any three methods of String class. **3**

OR

Implements any three methods of StringBuffer class.

- (C)** List and explain four main OOPs concepts. **7**

OR

- [1] Explain use of Math class with any three methods.
- [2] Describe the static nested class.

- Q.4** **(A)** Explain types of inheritance. **4**
 (B) Describe function overloading. **3**

OR

Describe function overriding.

- (C)** Demonstrate all use of final and this keyword with example. **7**

OR

Demonstrate all use of super and static keyword with example.

- Q.5** **(A)** Explain access specifiers in java. **4**
 (B) Write a java program to read data from the file. **3**

OR

Write a java program to write data to a file.

- (C)** What is exception? what is the need of exception handling mechanism? **7**
 Implement exception handling mechanism with suitable example.

OR

What is package? How can package be defined and imported? Demonstrate it with suitable example.
